NUMBER 75

K. G. M. SKENE and A. J. ANTCLIFF: A Comparative Study of Cytokinin Levels in Bleeding Sap of *Vitis vinifera* (L.) and the Two Grapevine Rootstocks, Salt Creek and 1613 283

T. H. THOMAS: The Distribution of Hormones in Relation to Apical Dominance in Brussels Sprouts (*Brassica oleracea* var. *gemmifera* L.) Plants 294

U. MARCHAIM, Y. BIRK, A. DOVRAT, and T. BERMAN: Lucerne Saponins as Inhibitors of Cotton Seed Germination 302

T. J. FLOWERS: Salt Tolerance in *Suaeda maritima* (L.) Dum. 310

J. L. GUARDIOLA and J. F. SUTCLIFFE: Transport of Materials from the Cotyledons during Germination of Seeds of the Garden Pea (*Pisum sativum* L.) 322

H. F. WALDING and P. E. WEATHERLEY: The Effect of Cooling on Translocation in *Salix viminalis* 338

D. A. MORRIS and P. J. WINFIELD: Kinetin Transport to Axillary Buds of Dwarf Pea (*Pisum sativum* L.) 346

R. N. BASU: Effect of Non-auxin Chemicals on Translocation of Auxins in Cuttings of *Phaseolus vulgaris* (L.) 357

H. C. PASSAM and J. M. PALMER: Electron Transport and Oxidative Phosphorylation in *Arum* Spadix Mitochondria 366

D. T. JONES and T. A. VILLIERS: Changes in Distribution of Acid-Phosphatase Activity During Wound Regeneration in *Coleus* 375

R. A. Gibson, Elnora A. Schneider, and F. Wightman: Biosynthesis and Metabolism of Indol-3yl-acetic acid. II 381

P. J. Whitney, J. B. Heale, and J. G. Vaughan: Protein Changes in the Vascular Wilt Disease of Lucerne Caused by *Verticillium albo-atrum* R. et B. 400

R. M. Bednarz and H. P. Rasmussen: CO_2-fixation Sites in Leaves of Maize and Oats 415

T. W. Ford and E. W. Simon: Peroxidase and Glucose-6-phosphate Dehydrogenase Levels in Cotyledons of *Cucumis sativus* (L.) 423

K. G. Moore, Katrina Bentley, and P. H. Lovell: A Comparative Study of Chlorophyll Production in Cotyledons 432

P. J. Lea and D. A. Thurman: Intracellular Location and Properties of Plant L-Glutamate Dehydrogenases 440

J. B. Loy: A Comparison of Stem Peroxidases in Bush and Vine Forms of Squash (*Cucurbita maxima* Duch and *C. pepo* L.) 450

H. Greenway, B. Lange, and Margaret Leahy: Effects of Rapidly and Slowly Permeating Osmotica on Macromolecule and Sucrose Synthesis 459

J. Edelman and A. D. Hanson: Sucrose Suppression of Chlorophyll Synthesis in Carrot-Tissue Cultures 469

A. D. Hanson: The Mechanism of Photosynthetic Product Secretion by Carrot-Tissue Cultures 479

C. L. Hedley and J. L. Stoddart: Patterns of Protein Synthesis in *Lolium temulentum* (L.) I 490

C. L. Hedley and J. L. Stoddart: Patterns of Protein Synthesis in *Lolium temulentum* (L.) II 502

B. J. Miflin and P. R. Cave: The Control of Leucine, Isoleucine, and Valine Biosynthesis in a Range of Higher Plants 511

D. Wilson: Variation in Photorespiration in *Lolium* 517

J. S. Knypl and Krystyna M. Chylinska: The Inhibitory Effect of (2 Chloroethyl)-trimethylammonium Chloride on Chlorophyll and Protein Synthesis in Lettuce Cotyledons, and its Reversal by Potassium 525

M. O. Fawole and P. J. Casselton: Observations on the Regulation of Glutamate Dehydrogenase Activity in *Coprinus lagopus* 530

F. M. Chaudhry and J. F. Loneragan: Zinc Absorption by Wheat Seedlings and the Nature of its Inhibition by Alkaline Earth Cations 552

M. T. Dinsdale and A. E. Walsby: The Interrelations of Cell Turgor Pressure, Gas-vacuolation, and Buoyancy in a Blue-green Alga 561

A. K. Helmy, E. A. Ferreiro, and N. Peinemann: Some Studies on Root Membrane Potentials 571

NUMBER 76

R. K. M. Hay and W. P. Anderson: Characterization of Exudation from Excised Roots of Onion, *Allium cepa*. I. Water Flux 577

R. K. M. Hay and W. P. Anderson: Characterization of Exudation from Excised Roots of Onion, *Allium cepa*. II. Chemical Composition of Exudate 585

J. Skierczyńska, R. Żolnierczuk, E. Śpiewla, W. Bulanda, and A. Przygodzka: Measurements of Membrane Resistance of Characeae with External Electrodes and Microelectrodes 591

T. W. Tanton and S. H. Crowdy: Water Pathways in Higher Plants. II. Water Pathways in Roots 600

T. W. Tanton and S. H. Crowdy: Water Pathways in Higher Plants. III. The Transpiration Stream within Leaves 619

J. Barber and Y. J. Shieh: Net and Steady-state Cation Fluxes in *Chlorella pyrenoidosa* 627

R. D. Hartley and L. H. P. Jones: Silicon Compounds in Xylem Exudates of Plants 637

A. Q. Ansari and D. J. F. Bowling: The Effect of Water and Salt Fluxes on the Trans-root Potential in *Helianthus annuus* 641

D. C. Davenport: Relative Water Content of Leaves; Underestimation caused by Antitranspirant Film 651

Helen Birecka, Liu-Mei Shih, and Arthur W. Galston: Isoperoxidase Patterns in Tobacco Pith and their Alteration Following Tissue Excision 655

A. J. Abbott: Composition of Excised and Attached Sterile Pea Roots—Loss of Cell Nucleic Acids 667

G. Hussey: The Mode of Origin of a Leaf Primordium in the Shoot Apex of the Pea (*Pisum sativum*) 675

P. G. Ayres: Abnormal Behaviour of Stomata in Barley Leaves Infected with *Rhynchosporium secalis* (Oudem.) J. J. Davis 683

J. Derek Bewley: The Conservation of Polyribosomes in the Moss *Tortula ruralis* during Total Desiccation 692

O. P. Garg and V. Kapoor: Retardation of Leaf Senescence by Ascorbic Acid 699

W. R. Watts: Leaf Extension in *Zea mays*. I. Leaf Extension and Water Potential in Relation to Root-zone and Air Temperatures 704

W. R. Watts: Leaf Extension in *Zea mays*. II. Leaf Extension in Response to Independent Variation of the Temperature of the Apical Meristem, of the Air Around the Leaves, and of the Root-zone 713

B. Jeffcoat and K. E. Cockshull: Changes in the Levels of Endogenous Growth Regulators during Development of the Flowers of *Chrysanthemum morifolium* 722

J. H. Palmer: Roles of Ethylene and Indol-3yl-acetic Acid in Petiole Epinasty in *Helianthus annuus* and the Modifying Influence of Gibberellic Acid 733

A. Back, S. Bittner, and A. E. Richmond: The Effect of Abscisic Acid on the Metabolism of Kinetin in Detached Leaves of *Rumex pulcher* 744

O. Ojeaga Ojehomon: Fruit Abscission in Cowpea, *Vigna unguiculata* (L.) Walp. I. Distribution of ^{14}C-Assimilates in the Inflorescence and Comparative Growth of Ovaries from Persisting and Abscising Open Flowers 751

Shamshad M. Naqvi: The Effect of Morphactin on the Kinetics of Indol-3yl-acetic Acid-2-^{14}C Transport in *Zea mays* L. Coleoptile Segments 763

K. G. M. Skene: The Effect of Ringing on Cytokinin Activity in Shoots of the Grape Vine 768

R. A. Gibson, Geraldine Barrett, and F. Wightman: Biosynthesis and Metabolism of Indol-3yl-acetic Acid. III. Partial Purification and Properties of a Tryptamine-forming L-Tryptophan Decarobxylase from Tomato Shoots 775

Sarvjit L. Soni, Peter B. Kaufman, and Wilbur C. Bigelow: Regulation of Silicon Deposition in *Avena* Internodal Epidermis by Gibberellic Acid and Sucrose 787

M. T. Wu, B. Singh, and D. K. Salunkhe: Influence of Foliar Application of *s*-Triazine Compounds on Fresh Weight, Dry Weight, Chemical Composition, and Enzymatic Activity of Pea and Sweet Corn Seedlings 793

Margret H. Bayer: Transport and Accumulation of IAA-^{14}C in Tumour-forming *Nicotiana* Hybrids 801

D. P. Webb and P. F. Wareing: Seed Dormancy in *Acer pseudoplatanus* L.: the Role of the Covering Structures 813

J. A. Sargent and G. E. Blackman: Studies on Foliar Penetration. IX. Patterns of Penetration of 2,4-Dichlorophenoxyacetic Acid into the Leaves of Different Species 830

N. O. Adedipe and D. P. Ormrod: Vegetative Growth Responses of Pea Plants to CCC and Phosfon in Relation to Phosphorus Nutrition 842

Michael B. Jackson and Daphne J. Osborne: Abscisic Acid, Auxin, and Ethylene in Explant Abscission 849

NUMBER 77

G. Jeannin, D. Melet, and A. Kovoor: Differential Extraction of Nucleic Acids from Large Quantities of Plant Tissue: DNA and Transfer RNA from Jerusalem Artichoke Rhizomes 863
